

MAKE AN IMPACT ON RARE DISEASE DAY

**SHOW
YOUR STRIPES**

Social Media Toolkit

The zebra is the official symbol of rare diseases in the United States and is noted for its black and white stripes, which are central to its uniqueness. Everyone has his/her own stripes, those characteristics that make each individual distinct. While each of the more than 7,000 rare diseases are unique, there are many commonalities that unite the rare disease community. In the spirit of increasing awareness regarding rare disease issues, raising the profile of the rare disease community at large and celebrating Rare Disease Day, this year NORD is promoting specific ways that individuals, organizations and groups can “show their stripes.”

One easy way that you can show your stripes is by sharing messages on social media! Join us and raise awareness for the rare disease that you are impacted by and for the community in general by sharing messages on social media. This toolkit includes helpful general tips, sample social media posts to share, graphic design templates that you can upload onto social media and the proper hashtags and profiles to tag.

Getting Started

Social media properties

Feel free to tag NORD in your posts using the profiles below:

Facebook: @NationalOrganizationforRareDisorders; @RareDiseaseDay.US

Twitter: @RareDiseases; @RareDayUS

LinkedIn: @NationalOrganizationforRareDisorders

Hashtags: #ShowYourStripes, #RareDiseaseDay

Graphic design

NORD has created a variety of social media images you may use to raise awareness and start conversations online. Please feel free to [download the zipped folder](#) and share the assets across your social media accounts.

Helpful tips for social media

- **Attach an image to your post** – Feel free to use one of the assets that we’ve [provided](#) or get creative! Have graphic fun with the theme, “Show Your Stripes,” on your account and in your posts.
- **Engage with your followers** – If you receive questions or comments about your posts, respond to them! Social media is all about the engagement between followers and having a conversation.
- **Tag your followers, and beyond** – Are there contacts in your social network who you know would like to get involved with Rare Disease Day? Tag them in your posts and encourage them to participate. This includes public figures, leaders, celebrities and others who you may not know but think would be interested.
- **Include a call to action** – Use clear wording in your posts, especially if there is something you’d like your followers to do (i.e. “Show your support! Wear stripes on Rare Disease Day and post a pic with the tag #ShowYourStripes”).
- **Character Limits:**
 - 280 characters – is the character limit on Twitter
 - 2,200 characters – is the character limit on Instagram
 - Facebook and LinkedIn do not have character limits, but shorter posts tend to be more effective.

Other Social Media Activities

In addition to sharing the suggested posts and graphic design elements on your social media channels, consider using social media in the following ways for Rare Disease Day:

- **Spread the Word** – Share information about an in-person event to help spread the word and increase attendance
- **Commit Your Feed** – Devote your social media profiles to rare diseases during the month of February by committing to sharing a post about rare disease every day. Whether it be your own post, photos from our graphic design elements on page 2, or sharing news articles, your continuous posts will help to raise awareness for rare diseases.
- **Go Live!** – Go live on Facebook for a few minutes or more to share your personal rare disease story. Going live is a popular way to get attention on Facebook as your friends will be notified when you do it. In order to be prepared before going live, you may want to plan out your talking points in advance.
- **Increase Engagement** – NORD and its Member Organizations will be posting about Rare Disease Day frequently leading up to and on the big day. Make those posts go further by not only sharing them, but tagging your friends and others. Here are some ways that you can help increase engagement on posts:
 - o Comment with what rare disease you are impacted by
 - o Comment and tag a friend and ask them to share the post to raise awareness
 - o Share the post and tag your favorite celebrity in the post to let them know about Rare Disease Day
 - o Comment and tag your elected officials
 - o Share the post and tag 10 friends who may not know about rare diseases
