SARA'S CURE: APOLLO613 (CCS618) PHASE I/II TRIAL

TRAVEL & LODGING ASSISTANCE

What is the purpose of this program?

Deciding to participate in a clinical trial is an important decision for patients and their families. When entering a clinical trial, the expense required to arrange travel to and from a study site may be considered a barrier to participation. This Program eliminates that barrier.

NORD's Clinical Trial Travel & Lodging Assistance Program provides individuals enrolled in the Rafael Pharmaceutical APOLLO613 (CCS618) Phase I/II Trial with financial assistance for travel and lodging related to participation in this study.

Who is eligible for this program?

If you have been diagnosed with Clear Cell Sarcoma and are enrolled in the APOLLO613 (CCS618) Phase I/II Clear Cell Sarcoma study, the coordinator at your study site may refer you to NORD, or you may self-refer to the program.

- A NORD Patient Services Representative will work with you to begin the process for arranging your travel and lodging for your study site visits.
- NORD will book and prepay your travel and lodging costs and will review with you the process for reimbursement of some additional out-of-pocket costs you may encounter during your study participation such as meals. Reimbursement for eligible expenses will be in accordance with the Program's financial guidelines that are set in advance by NORD.

Alone we are rare. Together we are strong.®
