

NORD® Rare Disease Video Library

The NORD® Rare Disease Video Library houses educational videos on rare diseases for patients, caregivers, students, professionals and the public. NORD works with medical experts and patient organizations to develop the videos, which are made possible by individual donations, educational grants and corporate sponsorship. NORD is solely responsible for the content.

LIBRARY SPONSORSHIP

Establishment of this library was initially made possible by a generous donation from Incyte Pharmaceuticals. To date, the following donors have made contributions at the library-level of sponsorship.

VIDEO SPONSORSHIP

The following individuals, organizations or companies have supported the creation of one or more videos for this library.

NORD provides educational resources to the rare community, including those living with a rare disease, caregivers, medical professionals, students, the media and researchers. Any individual, organization, foundation or company interested in making a donation to support the creation of one or more videos may write to education@rarediseases.org.
